Comment by the CEO

Our investment activity has intensified during the second quarter of 2021 following the issuance of EUR 150m of bonds in April, which successfully extended our debt maturity by five years to 2026.

The number of market opportunities in the SCEE region is expected to rise further in the second half of 2021 following the end of loan moratoria imposed in response to the COVID-19 pandemic. We are very well-positioned to capitalize on our investment pipeline and expand our investment portfolio.

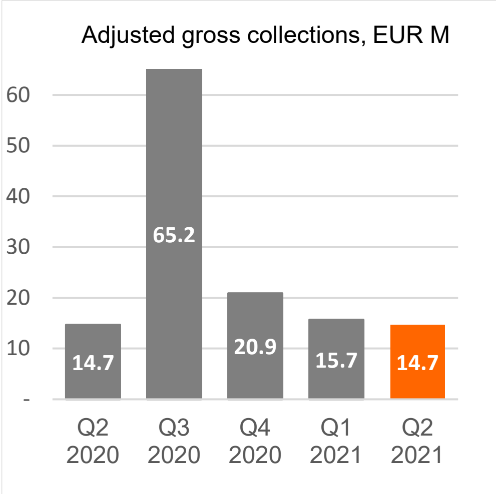
Investment activity intensifies
During the quarter we acquired a distressed asset portfolio in Romania containing consumer receivables. The gross collection value (face value) of the portfolio amounted to approximately EUR 90m. At 30 June 2021 we have access to over EUR 50m of available funds, including approximately EUR 41m of cash and about EUR 12m of owned bonds following the bond refinancing, enabling us to be both selective and responsive to opportunistic investments that drive growth and profitability.

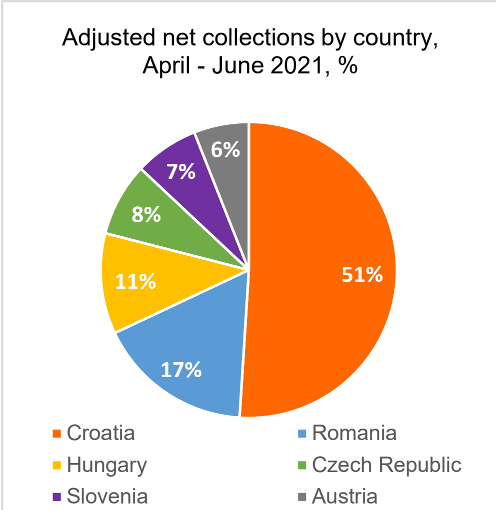
DDM reaffirmed final 'B' Rating with stable outlook
I am very pleased that both S&P Global Ratings ("S&P") and Fitch Ratings ("Fitch") reaffirmed DDM Debt AB's ("DDM Debt") 'B' rating with stable outlook in June. The final 'B' rating reflects our strong liquidity and capital position, with a significantly extended debt maturity profile to 2026. The ratings are also supported by a capital deployment framework that is both robust and well-structured with a strong track record, ahead of further investments expected in the second half of 2021.

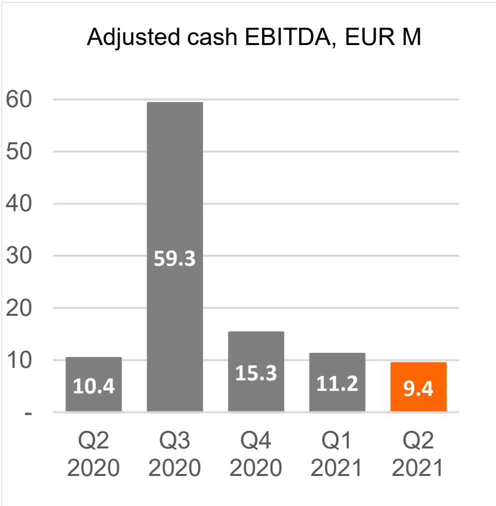
Listed EUR 150m of bonds on Nasdaq Stockholm with a five-year tenor
DDM Debt successfully issued senior secured fixed rate bonds of EUR 150m on 19 April, within a total framework amount of EUR 300m. The bonds have a five-year tenor and carry a fixed rate coupon of 9%. The bonds were admitted to trading on the Corporate Bond list at Nasdaq Stockholm on 9 June and were recently trading above par at a price per bond of 103.625. We are very pleased to have secured this long-term, fixed rate financing providing stability and the opportunity for DDM to focus fully on its investments and growth strategy.

Redeemed EUR 133.5m of previously existing bonds
On 9 April DDM Debt called its previously existing DDM2 02 EUR 33.5m bonds and DDM2 03 EUR 100m bonds at redemption amounts of 103.00% and 101.85% respectively. The bonds were de-listed from the corporate bond list of Nasdaq Stockholm on 23 April and were redeemed on 6 May. Following the bond refinancing, the net loss for the first six months of 2021 of EUR 3.7m includes non-recurring items of approximately EUR 3.9m of financial expenses. This is due to the call premium of EUR 2.4m that was paid to redeem the previously existing bonds and the non-cash write off of about EUR 1.5m for the remaining capitalized transaction costs.

Collections and cash EBITDA
During the first half of 2021 we have achieved adjusted gross collections of EUR 30.4m, 18% lower than the corresponding period in the prior year mainly due to collections that were received from Greece during the first half of 2020. DDM discloses gross collections comprised of cash collections from the acquired portfolios held by DDM, before commission and fees to third parties, as it is a common measure to monitor the performance of portfolios in the debt purchasing industry. Adjusted net collections in the first half of 2021 were 41% above the corresponding period in the prior year when excluding Greece in H1 2020. This has resulted in adjusted cash EBITDA being approximately 80% as a percentage of net collections for the first half of 2021, demonstrating the high cash conversion and scalability of our operations. The release of credit provisions implemented in the prior year in response to the COVID-19 pandemic resulted in positive revaluations of more than 1% of the carrying value of the opening book at the start of the year.







Market outlook
As COVID-19 vaccination programs continue across the SCEE region and travel restrictions imposed in response to the COVID-19 pandemic are being eased, economies across the region are recovering significantly during 2021, particularly in the tourism industry that was severely affected last year. The long-term extent of the COVID-19 pandemic on asset quality remains uncertain, as European banks are still in the process of assessing which borrowers will default on their loans and which will recover when the economies fully resume.

European banks are expected to come under renewed pressure from regulators to deleverage their balance sheet as loan moratoria, employment protection schemes and monetary expansion policies by central banks in response to the COVID-19 pandemic come to an end. The volumes of NPL sales are expected to increase significantly during the second half of 2021 and during 2022, as European banks actively divest their non-core NPL assets to improve capital and leverage ratios, following higher loan provisioning as a result of the COVID-19 pandemic.

DDM has successfully extended its bond program and is very well-positioned to capitalize on market opportunities due to its extensive local sector experience and active engagement with reputable sellers of debt portfolios across the SCEE region. We have a very well-structured and opportunistic investment strategy that will continue to seek out investments by also seeking out opportunities in new geographies and teaming up with co-investors for larger, more complex acquisitions.

DDM Holding AG
Henrik Wennerholm, CEO

Florian Nowotny appointed Chief Executive Officer
The Board has appointed Florian Nowotny as Chief Executive Officer of DDM with effect as of 1 August 2021 replacing Henrik Wennerholm. “Florian has been closely involved with DDM as a board member during the last years and has extensive experience from leading listed entities in growth phases and from the real estate business which is closely linked to our secured portfolios. The board and I believe that Florian has the right background to lead DDM in its next phase. On behalf of the Board of Directors we would like to thank Henrik Wennerholm for his significant contributions to DDM over the last three years. Henrik will remain as an advisor to the Company and focus on business development to increase the sourcing efforts of the company” comments Jörgen Durban, Chairman of the Board of DDM Holding AG.

Financial results

Adjusted gross collections amounted to EUR 14.7m in the second quarter of 2021, in line with the corresponding period last year, with the majority of gross collections received during Q2 2021 from large, secured receivables in Croatia. After deducting commission and collection fees to third parties this resulted in EUR 11.9m of adjusted net collections being received for the second quarter of 2021, 25% higher than the corresponding period in the prior year when excluding Greece in Q2 2020.

Operating expenses were EUR 2.5m in the quarter, EUR 0.5m lower than the corresponding period last year. As a result, adjusted cash EBITDA totaled EUR 9.4m in the second quarter of 2021, equating to a high cash conversion ratio of 79% as a percentage of adjusted net collections.

The operating profit margin of 48% in the second quarter is in line with the corresponding period last year and includes EUR 1.2m of upwards revaluation of portfolios located across the Balkans. This is principally due to the release of credit provisions implemented in the prior year in response to the COVID-19 pandemic, for which large, secured receivables are expected to settle earlier than forecasted during the second half of 2021.

Following the bond refinancing, the net loss for the second quarter of 2021 of EUR 4.0m includes non-recurring items of approximately EUR 3.9m in financial expenses. This is due to the call premium of EUR 2.4m that was paid to redeem the previously existing bonds and the non-cash write off of about EUR 1.5m for the remaining capitalized transaction costs.

Share of net profits of associate and joint venture

The results for the second quarter include EUR 0.9m share of net profits of associate and joint venture in the income statement offset by EUR 0.6m share of other comprehensive loss of associate accounted for using the equity method in other comprehensive income. We received a capital dividend from Addiko Bank AG amounting to EUR 0.7m on 4 May and are expecting to receive a further EUR 3.9m dividend later in the year, conditional on the European Central Bank guidance on dividend distributions.

Cash flow and financing

For the second quarter of 2021, cash flow from operating activities before working capital changes was EUR 1.3m compared to EUR 8.2m for the corresponding period in 2020. This is primarily as a result of the call premium that was paid following the EUR 133.5m bond refinancing in April 2021, cash distributions received in the prior year from the joint venture together with B2 Holding and the refund of corporation tax in Q2 2020. We have a strong cash position of EUR 41.2m following the bond refinancing, together with own bonds held of EUR 11.6m, resulting in significant funds that are available for investments and acquisitions.

Assets and utilization rate

Assets at 30 June 2021 totaled approximately EUR 205m, with approximately 64% of the balance sheet invested, compared to over 70% utilization rate at the end of 2020, as a result of portfolio amortization in H1. With access to over EUR 50m of available funds, comprised of approximately EUR 41m of cash and about EUR 12m of owned bonds following the bond refinancing, we expect further investments in the second half of 2021, thereby increasing the utilization rate.

Estimated Remaining Collections

ERC in relation to invested assets at 30 June 2021 stands at EUR 243m, corresponding to a decrease of 6% compared to 31 December 2020, as a result of the collections that have been received partially offset by portfolios acquired during the first half of 2021. The composition of the portfolios that are secured is approximately 75% of ERC at 30 June 2021 with 69% of the collections expected to be received in the next three years.

Notes

Note 1. Basis of preparation

These consolidated financial statements (the "financial statements") of DDM Holding AG and its subsidiaries (together "DDM" or "the Company") have been prepared in accordance with IAS 34 Interim Financial Reporting, are unaudited, and should be read in conjunction with DDM's last annual consolidated financial statements as of and for the year ended 31 December 2020. DDM's principal accounting policies are set out in Note 3 to the consolidated financial statements in the Annual Report 2020 and conform with International Financial Reporting Standards (IFRS) as adopted by the EU.

In addition to the financial measures defined in IFRS, certain key figures, which qualify as alternative performance measures (APMs) are presented to reflect the underlying business performance and enhance comparability from period to period. These APMs should not be considered as a substitute for measures defined under IFRS. Please refer to page 18 for reconciliation of alternative performance measures including adjusted gross collections, adjusted net collections, adjusted cash EBITDA and adjusted net profit / (loss) for the period.

All amounts are reported in thousands of Euros (EUR k), unless stated otherwise. Rounding differences may occur.

Subsidiaries
Subsidiaries are all entities (including special purpose entities) over which DDM Holding AG has control. DDM Holding AG controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group and are de-consolidated from the date on which control ceases. Intercompany transactions, balances, and unrealized gains on transactions between group companies are eliminated.

On 5 May 2021, DDM transferred 99% of its ownership in Lombard Pénzügyi és Lízing Zrt, Lombard Ingatlan Lízing Zrt. and Lombard Bérlet Kft ("Lombard"), being the collections platform in Hungary, to AxFina Holding S.A. ("AxFina") as servicer for a nominal consideration and DDM retains the economic rights to 100% of the distressed asset portfolio .

Joint ventures
The Company applies IFRS 11 Joint Arrangements, where DDM, together with one or several parties have joint control over an arrangement in accordance with a shareholder agreement. DDM's joint arrangement with B2Holding where each party holds 50% of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S (the "Joint Venture") is classified as a joint venture, as DDM is entitled to 50% of the net assets of the Joint Venture rather than having a direct entitlement to assets and responsibility for liabilities. The equity method is applied when accounting for the joint venture. Under the equity method of accounting the investment is recognized at cost and subsequently adjusted to DDM's 50% share of the change in the net assets of the Joint Venture since the acquisition date.

The consolidated income statement includes DDM's share of earnings, and this is reported under Share of net profits of joint venture. Dividends received from the joint venture are not recognized in the income statement and instead reduce the carrying value of the investment. The equity method is applied from the date joint control arises until the time it ceases, or if the joint venture becomes a subsidiary. Upon loss of joint control over the joint venture, and as such the equity method ceases, the Company measures and recognizes any difference between the carrying amount of the investment in the joint venture with the fair value of the remaining investment and/or proceeds from disposal which is recognized as a gain or loss directly in the income statement. The financial statements of the Joint Venture are prepared for the same reporting period as the Company.

CE Holding Invest S.C.S	Equity method	Luxembourg	50%	50%

Associates
Associates are all entities over which DDM Holding AG has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Interests in associates are accounted for using the equity method. The carrying amount (including goodwill) of equity accounted investments is tested annually for impairment.

DDM has determined that it has significant influence over Addiko Bank AG ("Addiko Bank") through already acquiring a 9.9% shareholding and confirms its intention to increase its shareholding further. The financial statements of the associate are prepared based on the most recent available financial statements for the period ending 31 March 2021, with adjustments made for the effects of any significant transactions until 30 June 2021.

Associates	Consolidation method	Domicile	30 June 2021	31 December 2020
Addiko Bank AG	Equity method	Austria	9.9%	9.9%

Post-employment benefit commitment
The post-employment benefit commitment is calculated on an annual basis. In 2020 and 2021 one quarter of the estimated annual post-employment benefit commitment has been recorded in the consolidated interim financial statements of DDM Holding AG per quarter, with an adjustment in fourth quarter of each respective year for the final actuarial valuation.

Note 2. Currency translation

All entities prepare their financial statements in their functional currency. At 30 June 2021 all fully consolidated group entities have EUR as their functional currency, except for DDM Debt Management d.o.o Beograd, which has Serbian Dinar (RSD) as its functional currency, DDM Debt Romania S.R.L, which has Romanian Leu (RON) as its functional currency, DDM REO Adria d.o.o. which has Croatia Kuna (HRK) as its functional currency and Finalp Zrt., which has Hungarian Forint (HUF) as its functional currency.

Note 3. Deferred taxes

Income tax expense reported for the business year includes the income tax expense of consolidated subsidiaries (calculated from their taxable income with the tax rate applicable in the relevant country). Income tax expense also includes deferred taxes, which have been recognized on the temporary differences arising from the invested assets (difference between the reported book values for tax and accounting purposes). Deferred income tax assets on temporary differences and tax losses carried forward are reported to the extent that it is probable that future profit will be available, against which the temporary differences can be utilized.

The amount of deferred tax assets is reduced when they are utilized or when it is no longer deemed likely that they will be utilized. The Company does not have group taxation, hence each legal entity is taxed separately. Under Swiss law, net operating losses can be carried forward for a period of up to seven years.

Note 4. Distressed asset portfolios

DDM invests in distressed asset portfolios, where the receivables are directly against the debtor. The recognition of the acquisition of distressed asset portfolios is based on the DDM Group's own forecast of future cash flows from acquired portfolios. Distressed asset portfolios consist mainly of portfolios of non-performing debts purchased at prices significantly below their principal value. Such assets are classified as non-current assets. Reporting follows the effective interest method, where the carrying value of each portfolio corresponds to the present value of all projected future cash flows discounted by an initial effective interest rate determined on the date the portfolio was acquired, based on the relation between purchase price and the projected future cash flows on the acquisition date. Changes in the carrying value of the portfolios are reported as amortization, revaluation and impairment for the period.

If the fair value of the investment at the acquisition date exceeds the purchase price, the difference results in a "gain on bargain purchase" in the income statement within the line "net collections". The gain on bargain purchase relates to the fair value measurement of the investment (purchase price allocation).

The acquisition method of accounting is used to account for all business combinations, the excess of the consideration transferred for the acquisition over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognized directly in profit or loss as a bargain purchase within the line "other operating income".

Cash flow projections are made at the portfolio level since each portfolio consists of a large number of receivables. Assumptions must be made at each reporting date as to the expected timing and amount of future cash flows. Cash flows include the nominal amount, reminder fees, collection fees and late interest that are expected to be received from debtors less forecasted collection costs. These projections are updated at each reporting date based on actual collection information, planned collection actions as well as macroeconomic scenarios and the specific features of the assets concerned. These scenarios are probability weighted according to their likely occurrence. The scenarios include a central scenario, based on the current economic environment, and upside and downside scenarios.

Note 4. *Distressed asset portfolios… continued*

The estimation and application of this forward-looking information requires significant judgment and is subject to appropriate internal governance and scrutiny. Changes in cash flow forecasts are treated symmetrically i.e. both increases and decreases in forecast cash flows affect the portfolios' book value and as a result "Revenue on invested assets". If there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows then this is recorded within the line "Revaluation of invested assets".

DDM assesses at each reporting date whether there is objective evidence that a portfolio is impaired. A portfolio is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the portfolio that can be reliably estimated. This is recorded within the line "Impairment of invested assets".

If, in a subsequent period, the amount of the impairment loss decreases, and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the consolidated income statement (within the line "Impairment of invested assets").

If DDM sells a portfolio for a higher or lower amount than its carrying value, the resulting gain or loss on disposal is recognized in the consolidated income statement (within the line "Net collections on sale of invested assets").

The carrying values of distressed asset portfolios are distributed by currency as follows:

Distressed asset portfolios by currency EUR '000s	30 June 2021	31 December 2020
HRK	50,705	55,214
EUR	8,535	9,971
HUF	7,942	9,405
RON	5,202	532
CZK	1,452	3,338
RSD	546	792
Total	**74,382**	**79,252**

The directors consider there to be no material differences between the financial asset values in the consolidated balance sheet and their fair value.

Note 5. Investment in joint venture

On 31 May 2019, DDM acquired a distressed asset portfolio containing secured corporate receivables in Croatia through a 50/50 joint venture with B2Holding. As part of the co-investment structure with B2Holding, DDM became 50% owner of the share capital and voting rights of CE Partner S.à r.l. and CE Holding Invest S.C.S. (the "Joint Venture") registered in Luxembourg.

The investment is accounted for using the equity method in accordance with IFRS 11 Joint Arrangements and has changed as follows during the period:

Investment in joint venture EUR '000s	30 June 2021	31 December 2020
Balance at beginning of the period	25,691	29,952
Share of net profits of joint venture	567	1,063
Incremental net distribution from the joint venture	(2,947)	(5,324)
Balance at end of the period	**23,311**	**25,691**

The incremental net distribution from the joint venture includes EUR 2.0m (FY 2020: EUR 4.5m) that has been received as a cash distribution during H1 2021, which relates to 2020. A further EUR 2.9m (31 December 2020: EUR 2.0m) has been reclassified to accounts receivable at the end of the period.

Note 6. Investment in associates

On 9 March 2020 DDM acquired a 9.9% shareholding in Addiko Bank for a cash consideration totaling approximately EUR 30m.

DDM has determined that it has significant influence over Addiko Bank through already acquiring a 9.9% shareholding and confirms its intention to increase its shareholding further. The financial statements of the associate are prepared based on the most recent available financial statements for the period ending 31 March 2021, with adjustments made for the effects of any significant transactions until 30 June 2021.

The investment is accounted for using the equity method in accordance with IAS 28 Associates and has changed as follows during the period:

Investment in associates EUR '000s	**30 June 2021**	**31 December 2020**
Balance at beginning of the period	32,986	–
Additions	–	30,094
Share of net profits in the income statement	1,262	194
Share of other comprehensive (loss) / income of associates accounted for using the equity method	(127)	2,698
Dividends received & other	(703)	–
Balance at end of the period	**33,418**	**32,986**

Following the acquisition of a 9.9% stake in Addiko Bank that closed during March 2020, the results for Q2 and H1 2021 include EUR 0.5m and EUR 1.3m respectively (FY 2020: EUR 0.2m) of share of net profits of the associate in the income statement and EUR 0.6m and EUR 0.1m respectively (FY 2020: EUR 2.7m) of share of other comprehensive loss of associates accounted for using the equity method in other comprehensive income. DDM received a capital dividend amounting to EUR 0.7m on 4 May and is expecting to receive a further EUR 3.9m dividend later in the year, conditional on the European Central Bank guidance on dividend distributions.

Note 7. Tangible assets

Tangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset as appropriate only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. Repairs and maintenance costs are charged to the income statement during the period in which they are incurred.

The major categories of tangible assets are depreciated on a straight-line basis as follows:

Furniture	5 years
Computer hardware	5 years

The Company distributes the amount initially recognized for a tangible asset between its significant components and depreciates each component separately. The carrying amount of a replaced component is derecognized when replaced. The residual value method of amortization and the useful lives of the assets are reviewed annually and adjusted if appropriate. Impairment and gains and losses on disposals of tangible assets are included in other operating expenses.

Note 8. Intangible assets

(i) Identifiable intangible assets

The Company's identifiable intangible assets are stated at cost less accumulated amortization and include the "FUSION" computer software that was developed in-house in cooperation with external IT consultancy firms that has a finite useful life. FUSION is the proprietary IT system which integrates investment data, case data, payment data and activity data into one effective and comprehensive IT system. This asset is capitalized and amortized on a straight-line basis in the income statement over its expected useful life of 5 years.

(ii) Goodwill

On the date of acquisition the assets and liabilities of acquired subsidiaries or businesses are valued at fair value and in accordance with uniform group policies. The excess of the acquisition price over the revalued net assets of the acquired company or the acquired parts of the business is recognized as goodwill in the balance sheet. Goodwill is tested annually for impairment or at any time if an indication of impairment exists.

Note 9. Loans and borrowings

The Group had the following borrowings outstanding during the periods ending 30 June 2021 and/or 31 December 2020:

Bond loan EUR 150m
On 19 April 2021, DDM Debt AB (publ) ("DDM Debt") issued EUR 150m of senior secured fixed rate bonds at 9% within a total framework amount of EUR 300m. The bonds with ISIN number SE0015797683 have a final maturity date of 19 April 2026 and are listed on the Corporate Bond list at Nasdaq Stockholm. The proceeds from the new bond issue were mainly employed towards refinancing the existing EUR 100m and EUR 33.5m bonds (of which EUR 23m of the EUR 100m bonds were already held by DDM Debt) and for investments and acquisitions.

DDM Debt's financial instruments contain a number of financial covenants, including limits on certain financial indicators. The financial covenants according to the terms and conditions of the senior secured bonds are: an equity ratio of at least 20.00% and net interest bearing debt to ERC below 75.00%. The financial covenants must be complied with on an incurrence test basis and in connection to the issuance of the annual audited financial statements. DDM's management carefully monitors these key financial indicators, so that it can quickly take measures if there is a risk that one or more limits may be exceeded. Please also refer to the financial statements of DDM Debt.

DDM Debt has pledged the shares in its material wholly-owned subsidiaries as security under the terms and conditions. DDM Finance AB is a guarantor of the bonds. In addition, the investors receive a first ranking share pledge over the shares of DDM Debt. The terms and conditions of DDM Debt's senior secured bonds contain a number of restrictions, including relating to distributions, the nature of the business, financial indebtedness, disposals of assets, dealings with related parties, negative pledges, new market loans, mergers and demergers and local credits. The terms and conditions of the senior secured bonds are available in their entirety on our website.

Bond loan EUR 100m
On 8 April 2019, DDM Debt issued EUR 100m of senior secured bonds priced at Euribor plus a margin of 9.25% within a total framework amount of EUR 150m. The bonds with ISIN number SE0012454940 had a final maturity date of 8 April 2022 and were listed on the Corporate Bond list at Nasdaq Stockholm. At 31 December 2020 and at the redemption date DDM Debt held EUR 23m of the EUR 100m senior secured bonds following bond buybacks.

On 6 May 2021, DDM Debt redeemed in advance its EUR 100m senior secured bonds with ISIN SE0012454940 and its EUR 33.5m senior secured bonds with ISIN number SE0010636746, in accordance with Clause 9.3 (Voluntary total redemption (call option)) of the terms and conditions of the bonds. The bonds were redeemed each at the applicable call option (being 101.85 per cent. and 103.0 per cent. of the outstanding nominal amount for the EUR 100m bonds and EUR 33.5m bonds respectively) totaling EUR 3.0m paid, of which EUR 2.4m was expensed to the income statement and EUR 0.6m capitalized as part of the new bond issuance, plus accrued but unpaid interest. In addition, the remaining capitalized transaction costs of approximately EUR 1.5m were expensed to the income statement as a non-cash write off in relation to the existing bonds. The redemption amount was paid to the bondholders holding bonds on the relevant record date, being 29 April 2021. The bonds were de-listed from the corporate bond list of Nasdaq Stockholm in connection with the redemption date and the last day of trading occurred on 23 April 2021.

Bond loan EUR 50m (EUR 33.5m at redemption date)
On 11 December 2017, DDM Debt issued EUR 50m of senior secured bonds at 8% within a total framework amount of EUR 160m. The bonds with ISIN number SE0010636746 had a final maturity date of 11 December 2021 and were listed on the Corporate Bond list at Nasdaq Stockholm.

On 14 August 2020 DDM Debt AB completed a written procedure to request certain amendments to the terms and conditions of its up to EUR 160m senior secured bonds. The amendments incorporated a mandatory partial redemption structure, including a EUR 7.5m of nominal value bond buyback paid on 16 September 2020, EUR 5m bond cancellation on 18 December 2020, call structure and consent fee of 1% that was paid on 28 August 2020. On 30 March 2021 EUR 4m was repaid as part of the mandatory partial redemption structure.

The EUR 33.5m bonds were redeemed in advance on 6 May 2021 (see "Bond loan EUR 100m" section above for further details).

Revolving credit facility EUR 27m
On 15 March 2019, DDM Debt agreed a super senior revolving credit facility of EUR 27m with an international bank. The revolving credit facility was available to finance investments and for general corporate purposes. The facility was available until 15 March 2021 and priced at Euribor plus a margin of 350 basis points.

Senior secured notes EUR 18m
DDM Finance AB ("DDM Finance") has a total of EUR 18m of senior secured notes outstanding. DDM Finance used the majority of the net proceeds to provide a shareholder loan to DDM Finance's wholly owned direct subsidiary DDM Debt, which thereby qualifies as equity under the current DDM Debt senior secured bond terms. Under the terms and conditions investors receive a share pledge over the shares of DDM Finance, and any downstream loans to DDM Finance's direct subsidiary are pledged to investors as intercompany loans. The maturity date of the senior secured notes is 30 June 2022.

Other loans
In March 2020, DDM received approximately EUR 0.8m as financing as part of the government loan scheme in Switzerland for the COVID-19 pandemic. This was repaid in full in November 2020.

The levels in the hierarchy are:

- Level 1 – Quoted prices on active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (such as prices) or indirectly (such as derived from prices). The fair value of the bond loans is calculated based on the bid price for a trade occurring close to the balance sheet date.
- Level 3 – Inputs for the asset or liability that are not based on observable market data (that is unobservable inputs).

Note 10. Revenue recognition

Revenue on invested assets is the net amount of the cash collections (net of direct collection costs), amortization, revaluation and impairment of invested assets.

Gross collections are comprised of cash collections from the distressed asset portfolios held by DDM, before commission and fees to third parties. The gross amount of cash collected is recorded as “Gross collections” within the line “Revenue on invested assets” in the consolidated income statement. DDM discloses the alternative performance measure “Gross collections” in the consolidated income statement separately, as it is a common measure to monitor the performance of portfolios in the debt purchasing industry.

Net collections is comprised of gross collections from the distressed asset portfolios held by DDM, minus commission and fees to third parties. The net amount of cash collected is recorded as “Net collections” within the line “Revenue on invested assets” in the consolidated income statement. DDM discloses the alternative performance measure “Net collections” in the consolidated income statement separately, as it is an important measurement for DDM to monitor the performance of the portfolios and measure the cash available for operating expenses and to service its debt. DDM believes that disclosing net collections as a separate performance measure in the consolidated income statement improves the transparency and understanding of DDM's financial statements and performance, meeting the expectations of its investors.

Collection costs are comprised of all expenses directly attributable to the collection of distressed asset portfolios, such as collection fees, commission, transaction costs, non-recoverable VAT on amounts collected and Swiss VAT where applicable. The collection costs differ from portfolio to portfolio depending on the country/jurisdiction and the specific features of the assets concerned.

Net collections for the full year 2020 included EUR 59.8m received from Greece in H2 2020, due to the accelerated collections received following the restructuring of the Greek investment. The entire carrying value remaining of EUR 43.8m prior to the restructuring was recognized as amortization. DDM assessed the transaction and concluded that it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost.

Share of net profits of associate and joint venture
The results for Q2 and H1 2021 include EUR 0.5m and EUR 1.3m respectively (FY 2020: EUR 0.2m) of share of net profits of the associate in the income statement and EUR 0.6m and EUR 0.1m respectively (FY 2020: EUR 2.7m) of share of other comprehensive loss of associates accounted for using the equity method in other comprehensive income.

The results for Q2 and H1 2021 also include EUR 0.4m and EUR 0.6m respectively (Q2 2020: EUR 0.2m, H1 2020 EUR 0.6m and FY 2020: EUR 1.1m) from share of net profits of joint venture accounted for using the equity method in accordance with IFRS.

Revenue from management fees
Revenue from management fees related to revenue received from co-investors where DDM managed the operations of the assets, but did not own 100% of the portfolio. For Hungary these fees were calculated based on the performance of the portfolio, and for Greece these fees were calculated based on the time spent on portfolio management prior to the buy-out of the co-investors.

Note 11. Related parties

In 2019 DDM Group Finance S.A. entered into an agreement with the DDM Group where DDM Group Finance S.A. provides services under a brokerage contract. In relation to this agreement an amount of EUR 2,402k of brokerage fees were paid during the first half of 2021 (H1 2020: EUR 1,518k) of which EUR 1,730k of brokerage fees were capitalized as part of the bond refinancing in H1 2021, resulting in EUR 70k of amortized transaction costs that were recognized within financial expenses in Q2 2021 and EUR 672k of brokerage fees were recognized in consultancy expenses. In relation to the full year 2020 EUR 1,075k of brokerage fees were capitalized as transaction costs as part of the strategic investment in Addiko Bank, EUR 443k of brokerage fees were prepaid and EUR 2,270k of brokerage fees were recognized in consultancy expenses. In relation to the full year 2019 an amount of EUR 1,610k of brokerage fees was capitalized as transaction costs as part of the bond refinancing during Q2 2019, resulting in EUR 509k and EUR 652k (Q2 2020: EUR 127k, H1 2020: EUR 252k and FY 2020: EUR 523k) of amortized transaction costs that were recognized within financial expenses in Q2 and H1 2021 respectively.

Current assets at 30 June 2021 includes EUR 1,367k receivable from AxFina Holding S.A. ("AxFina") for the sale of 82% of the shares held in AxFina Austria GmbH during the full year 2019.

On 1 March 2020, AxFina Holding S.A. ("AxFina") entered into an agreement with the DDM Group where AxFina provides debt collection services under a servicing contract. Note 11. ***Related parties…*** *continued*

On 1 May 2020, NFE Unternehmensberatungs GmbH ("NFE"), a company related to Florian Nowotny, entered into an agreement with DDM where NFE provides services under an advisory agreement. Advisory services from NFE to DDM amounted to EUR 47k and EUR 94k (FY 2020: EUR 126k) which have been recognized in consultancy expenses during Q2 and H1 2021 respectively.

On 1 September 2020, Therese Wennerholm, a person related to Henrik Wennerholm, entered into an employment agreement with DDM Debt AB, which was transferred to DDM Finance AB on 1 April 2021, to provide administration services for a period of up to twelve months. Administration services in relation to this agreement amounted to EUR 18k and EUR 36k (FY 2020: EUR 18k) which have been recognized in consultancy expenses during Q2 and H1 2021 respectively.

On 5 May 2021, DDM transferred 99% of its ownership in Lombard Pénzügyi és Lízing Zrt, Lombard Ingatlan Lízing Zrt. and Lombard Bérlet Kft ("Lombard"), the collections platform in Hungary, to AxFina Holding S.A. ("AxFina") as servicer for a nominal consideration and DDM retains the economic rights to 100% of the distressed asset portfolio.

In 2017 DDM undertook an investment in a Greek NPL transaction which was executed by making a structured investment of a net amount of EUR 36.4m into a Luxembourg SPV ("Artemis Finance Holding S.A.R.L."), whose shares are ultimately held by trusts attributable to Erik Fällström and Andreas Tuczka. In 2019 DDM further bought out the co-investor, with a total investment amounting to approximately EUR 20.1m. In 2020 DDM restructured its investment in the Greek NPL transaction which resulted in accelerated collections of EUR 59.8m being received in H2 2020 and the entire carrying value remaining of EUR 43.8m prior to the restructuring was recognized as amortization. DDM assessed the transaction and concluded that it retains the same contractual rights to future cashflows in the distressed asset portfolio as prior to the restructuring and therefore has not derecognized the asset under IFRS 9 amortized cost. Transactions between DDM Group companies (fully consolidated) and Artemis Finance Holding (and its subsidiaries) were as follows:

The financial statements of the Company have been prepared in accordance with IAS 34 Interim Financial Reporting. In addition, the Company presents alternative performance measures ("APMs"). Adjusted key figures for gross collections, net collections, cash EBITDA and net (loss) / profit for the period provide a better understanding of the underlying business performance and enhance comparability from period to period, when the effect of items affecting comparability are adjusted for. Items affecting comparability can include one-time costs not affecting the Company's run rate cost level, significant earnings effects from acquisition and disposals of invested assets and incremental net distributions from joint ventures.

These measures do not have any standardized meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies. The APMs are regularly reviewed by Management and their aim is to enhance stakeholders' understanding of the Company's performance and to enhance comparability between financial periods. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS. The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management, distort the evaluation of the performance of our operations.

The APMs also provide measures commonly reported and widely used by investors as an indicator of the Company's operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing our ability to incur and service debt. APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.

Definitions

DDM
DDM Holding AG and its subsidiaries, including DDM Group AG, DDM Debt AB (publ) and their subsidiaries.

Amortization of invested assets
The carrying value of invested assets are amortized over time according to the effective interest rate method.

Cash EBITDA
Net collections and revenue from management fees, less operating expenses.

Earnings per share/EPS
Net earnings for the period, attributable to owners of the Parent Company, divided by the weighted average number of shares during the period.

EBITDA
Earnings before interest, taxes, depreciation of fixed assets and amortization of intangible assets as well as amortization, revaluation and impairment of invested assets.

Estimated Remaining Collections / ERC
Estimated Remaining Collections refers to the sum of future, undiscounted projected cash collections before commission and fees from acquired portfolios and future reasonably expected dividends, distributions or other payments from investments, in each case for the next following 120 months, either directly or as a result of any rights to collect or any rights to participate in amounts generated from portfolios or investments. This includes the Group's share of proceeds on all portfolios purchased or other investments made, however adjusted for any profit-sharing arrangements entered into by any member of the Group and where available the market value of any portfolio acquired or investment made.

ERC is not a balance sheet item, however it is provided for informational purposes as a common measure in the debt purchasing industry. ERC may be calculated differently by other companies and may not be comparable.

Equity
Shareholders' equity at the end of the period.

Equity ratio
The ratio of shareholders' equity to total assets at the end of the period.

Impairment of invested assets
Invested assets are reviewed at each reporting date and impaired if there is objective evidence that one or more events have taken place that will have a negative impact on the amount of future cash flows.

Invested assets
DDM's invested assets consist of purchases of distressed asset portfolios, investments in joint ventures and associates.

Net collections
Gross collections from Portfolios held by the Group less commission and collection fees to third parties (but if such Portfolios are partly owned, only taking into consideration such Group Company's pro rata share of the gross collections and commission and fees).

Net debt
Long-term and short-term loans, liabilities to credit institutions (bank overdrafts) less cash and cash equivalents.

Non-recurring items
One-time costs not affecting the Company's run rate cost level.

Operating expenses
Personnel, consulting and other operating expenses.

Revaluation of invested assets
Invested assets are reviewed at each reporting date and revalued if there is objective evidence that one or more events have taken place that will have a positive impact on the timing or amount of future cash flows, or a negative impact on the timing of future cash flows.

About DDM

DDM Holding AG (First North Growth Market: DDM) is a specialized multinational investor and manager of non-performing loans and special situations, offering the prospect of attractive returns from the expanding Southern, Central and Eastern European market. Since 2007, the DDM Group has built a successful platform in Southern, Central and Eastern Europe, and has acquired 2.4 million receivables with a nominal value of over EUR 4 billion.

For sellers (banks and financial institutions), management of portfolios of distressed assets is a sensitive issue as it concerns the relationship with their customers. For these sellers it is therefore critical that the acquirer handles the underlying individual debtors professionally, ethically and with respect. DDM has longstanding relations with sellers of distressed assets, based on trust and the Company's status as a credible acquirer.

The banking sector in Southern, Central and Eastern Europe is subject to increasingly stricter capital ratio requirements resulting in distressed assets being more expensive for banks to keep on their balance sheets. As a result, banks are increasingly looking to divest portfolios of distressed and other non-core assets.

DDM Holding AG, the Parent Company, is a company incorporated and domiciled in Zug, Switzerland and listed on Nasdaq First North Growth Market in Stockholm, Sweden, since August 2014.
